

# HOSPITAL IN THE HOME (HITH)

Enabling the **TRANSFER OF CARE** for medical and surgical patients (>16 years) from internal and external referrers to receive their care in the community (place of residence).

Suitable for patients who are deemed **SAFE** to receive their care in their home environment and require minimum of daily intervention including, but not limited to, intravenous therapy, monitoring of blood results, condition monitoring and titration of medications.

**For all referrals:**

Please call the HITH Team

 **0418 177 831**

**Open 7 days  
365 days  
7am – 7pm**

## Home Visiting Catchment Suburbs

*If your patient is not within the home visit catchment, they may still be suitable.  
Please discuss with HITH team for suitability on a case by case basis.*
